PRODUCT CARD

KITTING

Every location receives the right components, organized and ready.

DESCRIPTION

Advanced kitting brings printed materials, signage, hardware, and instructions together into complete store-specific packages. Controlled pick-and-pack workflows, verification, labelling, and protective packaging reduce store labour and rollout errors.

APPLICATIONS

- Multi-Location Retail
- Store Openings
- Seasonal Campaigns
- Franchise Networks
- Installation Programs
- Marketing Rollouts
- Replenishment

BENEFITS

Store-Specific Accuracy
Match every kit to each location

Reduced Store Labour
Arrive organized and ready

Quality Control
Verify contents before shipping

Traceability
Track components and exceptions
